

Jonathan Harward Bio

My name is Jonathan Harward. I graduated from Campbell University College of Pharmacy and Health Sciences in 2013. I then completed a PGY1 Community pharmacy residency with Kerr Drug. I am currently the Pharmacy Manager at Josefs Pharmacy in Raleigh. In addition to providing patient care in the traditional community setting, I am also active in providing specialty pharmacy and long-term care services. I am a site preceptor for our PGY1 Community Pharmacy residency program we have through a partnership with Campbell University. I also enjoy precepting students during IPPE or APPE rotations. I would be honored to serve on the Community Care executive committee to provide support to community pharmacists throughout North Carolina.
